EZ Scholarship, Inc.

P.1 & P.2 Success & Struggles

Melissa's P.1 & P.2

- Success:
 - Seeing the end result of the company I created.
- Struggle:
 - It was harder to come up with a business and facts about it.
 - Thinking of questions and queries.

Gilda's P.1 & P.2

- Success:
 - Already had an idea of what I wanted within my company.
- Struggle:
 - Not having a professional format
 - Understanding the concepts

P.3/P.3a & P.4/P.4a - Success & Struggles

Melissa's P.3 & P.4

- Success:
 - Not getting any error messages after executing a command.
 - Getting good grades on each part of the assignments.
- Struggles:
 - Figuring out which attributes to put in the tables.
 - Getting the constant error messages.

Gilda's P.3 & P.4

- Success :Being able to get help from professor and peers.
- Struggles: Knowing what attributes to put in my tables

P.5 & P.6 Success & Struggles

Melissa's P.5 & P.6

- Success:
 - Seeing "Command(s) Completed Successfully"
- Struggles:
 - All the constant error messages

Gilda's P.5 & P.6

- Success: Saved Plenty of times with Mockaroo data
- Struggles: Completely forgot about Mockaroo so did first table one by one.

Lessons Learned

Melissa

- Do not procrastinate to do assignments the night before its due.
- Don't be afraid to reach out for help from peers/professors.
- The importance of databases/creating databases.

Gilda

- Don't wait until last minute to work on projects
- Learned a lot about database
- MUST read book to better understand concepts
